Asset Donors can receive a blend of tax donation and Charity Tokens.
Charity Token donor Holders can use Tokens on the Rexnet Exchange.

The Charity Trading Token

Network, Pricing Method and Cost

The Charity Token Network

The Charity Token is a Master Token used by all Charities.

It is a common utility trading token that benefits every Charity.

When one Charity uses tokens, the price increases for all Charities.

The Charity Token Pricing Method

The Proof-of-Use™ method determines the Price of the Token.

For every \$1M Tokens used, the Token Price increases by one cent.

At \$1.00 the Token may be transferred to a Cryptocurrency Exchange.

The Charity Token Cost

Charities may purchase only the Tokens needed for any transaction.

Payment for Tokens is not due until the transaction is completed.

The more Tokens purchased, the larger the Token Multiplier.

Charities acquire Tokens at a Multiplier Price based on quantity.

Charities may purchase tokens directly online at www.rexnet.io.

MULTIPLIER	MULTIPLIER	MINIMUM	PURCHASING	MAXIMUM	PURCHASING
CATEGORY	FACTOR	BUY IN	POWER	BUY IN	POWER
